

SCUBA DIVING EXCURSION TO COZUMEL, MEXICO

MAY 19 - 26, 2018 - PACKAGE PRICE \$1,569

Cozumel

Cozumel is known throughout the SCUBA industry as one of the best diving locations in the world. Most of the diving and snorkeling activity on Cozumel is focused on the reefs and shallow coral formations that extend from the southern tip of the island to just south of San Miguel on the west coast. All of the beaches are protected and extend from the ferry pier in downtown San Miguel to the southern tip of the island, many of which are protected as part of an underwater national park. Here you'll find the second largest coral reef in the world, Mayan archaeological sites, and natural parks. Seafood lies at the heart of the cuisine. Low-key nightlife is enchanting and festive.

The Diving

The Mexican Caribbean is renowned as one of the best and most accessible dive destinations in the world. Fringed by a complex coral reef ecosystem covering a total area of approximately 12 square miles, Cozumel's reefs are part of a massive chain that stretches from the Gulf of Mexico to Honduras, representing the second largest reef system in the world. Towering coral pinnacles that drop-off into the abyss, mazes of swim-thru tunnels, and coral caves providing shelter to more than 500 species of fish are just some of the underwater sites to see. Turquoise-blue waters provide stunning views of turtles, nurse sharks, and spotted eagle rays.

The Accommodations

We will be staying at Casa Del Mar, located on the crystal waters of the Mexican Caribbean. Designed for the sun lover and sports enthusiast, you can enjoy SCUBA diving, snorkeling, windsurfing and much more. Casa del Mar is located 2 1/2 miles south of downtown, less than 5 minutes away from the famous "Paraiso" reef. The on-site dive shop, Cozumel Marine World, is located only a few steps from the hotel.
